

# Great Wi-Fi Starts Here

Ekahau's award-winning tools give customers the solution they need to design, validate, and maintain their wireless networks. Our products make it quick and easy to design Wi-Fi with the right number of access points (APs) in the right locations, and be able to quickly troubleshoot networks to limit work-stopping downtime.

1

## A Great Network Starts with a Great Design

Take business requirements for Wi-Fi connectivity and turn them into a plan for a high-performing and reliable network.

2

## Validate Your Design with Super Accurate Sidekick 2 Measurements

Use the premier Wi-Fi measurement device to provide highly accurate data for Wi-Fi surveys and spectrum analysis.

3

## Maintain Great Wi-Fi with Easy Performance Health Checks

Don't let good networks go bad. Changes in the environment and changes in user demand can have a serious impact on Wi-Fi.
